40	55-80	LEFT SIDE BEARING	162	162-50	LOCATING PIN SPRINGS (2)
41	41-50	LEFT SIDE BEARING SPRING			

NOTE: Many of www.pennparts.com schematics include changes that were either made by Penn, or errors found and corrected by our parts dept.

SBT Version 080611

**NOT SHOWN ON SCHEMATIC

**154 154-80 Shim, Spool Shaft

**On older reels predating 1989 using 29L-80 spool ratchet number is 81-80

*** IMPORTANT INFO: PENN replaced the drag washer and drive plates for the newer international series reels with a combined drive plate. Penn did not manufacture a combined drive plate specifically for the older 80, 80W, 80S or 80SW reels

IF YOU NEED THE DRAG WASHER OR DRIVE PLATE(s): Our parts dept. at www.pennparts.com has found that: The 117AN-80T drive plate works as a substitute for the 117A-80 plate w/6A-50 washer on the 80, 80W (The outside diameter is about 1/8" smaller but it will function).

The 117DN-50 outer drive plate works as a substitute for the 117-80 plate w/6A-50 washer on the 80, 80W
